AN HISTORIC VENUE

Bedern Hall stands within the walled medieval city of York to the south east of the great Minster to which its history is so closely tied. Originally part of the College of Vicars Choral, the Hall was their Refectory from the end of the 14th century up to the mid 17th century.

The area around the Hall was once a walled garden, vineyard and orchard with individual houses for the Vicars. The hall is a unique example of a scissor beamed medieval hall and is a listed building.
